James A. Pollock & Co., bankers and brokers & West Second South street, furnish the ollowing stock letter and gossip, received wer their private wrie;

NEW YORK, Jan. 27.—T. A. McIntyre & O. Stock Letter-Have some very bullish information on Steel. They say company is sooking a very large amount of business and amount of unfilled orders now on hand arger than in 1902.

New York-Walker Bros.' Stock Letter-Stocks closed strong with a good tone al-though somewhat off from best prices of the day. We look for a steady and strong mar-ket and on reactions it should be bought.

New York-Logan & Bryan Stock Letter-Early prices showed substantial advances over previous close and up to noon prices improved, the volume of business being large. In the late dealings a sharp break in Amalganated Copper caused a temporary check, but the late ralled easily, closing at the best prices of the day. The action of the market is certainly very strong and is surprising its best friends. A rather indifferent bank statement is looked for.

New York-Hutton Stock Letter-Material strength was seen in the muriet today and buying of a good class was noticeable in many of the best stocks. Reports of foreign baniors here believe that the political crisis is practically over and that more peaceful conditions will be witnessed in the future. The strength of foreign exchange today included a demand for gold by Paris houses and the shipping of \$2,600,600 gold to Paris shows that that place is preparing for any emissioney that may arise. A drive in copper in the late dealings unsettled prices momentarily but the weakness was of short duration and prices closed at about the best

New York-T. A. McIntyre & Co. Stock Letter-The speculation continues almost entirely professional but fundamental conditions are thoroughly sound and the improvement in the foreign situation is the basis for a somewhat more confident feeling regarding the future. Money continues excessively easy and the expert of \$5.50,000 in gold during the week has attracted only passing attention. There does not appear to be anything ahead of the market that is distinctly unfavorable and the indications point to ultimately higher prices but we continue to advise the purchase of good stocks on the reactions.

Now York-Dick Bros. Stock Letter-The market has been erratte but decidedly strong today. Considerable exottement and buoyancy was seen at times but there were also periods of weakness. The break in Amalgamated was attributed to new Lawson rumors.

New York—Marshall Spader & Co. Stock Letter—Decision Supreme court Harriman pictition expected Monday. Further exports two half millions engaged tomorrow. Banks gained in excess 53,680,600 currency but lost more by exports. London settlement proceeding smoothly. Stocks easier on resilizing Money 1% per cent. Tomorrow's bank statement may reflect large exports gold and to this extent be unfavorable. The market is quieter and there is a disposition to take profits and some pressure towards short selling.

New York—Summary—Americans in London steady, a chade above parity.

Atchieso convertible bonds on a basis of rights at it per cont should sell at 100½ to 100½; some possibility of indefinite pest-ponement of Russian loan in Paris.

Fiftyen roads for third week January show average grous increase 15 per cent.

Experts of gold coin to Paris may amount to \$40,000,009 in all before movement ceases.

Banks ginted from sub-treasury sinco Friday \$1,291000.

Southern Iron and Steel companies still hampered by scarcity of toke.

Twelve industrials advanced 151 per cent. Twenty active railroads advanced 171 per cent. New York-Summary-Americans in London

Bradstreet's Review for Week.

NEW YORK. Jan 27.—Bradstreet's tomorrow will say:
Inclement weather has retarded distributive trade, railway traffle and some forms of production throughout a wide area. The result is some irregularity in the reports from different sections. Industry still leads distribution in activity. The volume of new buying in Iron is light but specifications are coming out freely and current production is above the maximum. Seasonable influences affect sales of lumber but that industry is in a very strong position in the Northwest. The Southern humber and naval stores industry shows general improvement and even in the Pacific Northwest there are signs of reaction from the late intense degression. Business failures in the United States for the week ending January 25 number 215 against 204 last week; 22 in the like week last year; 230 in 1802, 202 in 1802, and 234 in 1901.
